RROR IN DARR MINE

Hundred Miners Were Entombed by Explosion.

RTY BODIES RECOVERED

Mine Disaster Occurs Since De. mber 1, This Time in Pennsylva. —Bodies of Victims Dismember. and Mangled.

obs Creek, Pa., Dec. 21—Of the or more miners who were made ers in the Darr mine of the burg Coal company by a terrific sion at noon Thursday, the bod. of thirty Friday morning lay in main entry where they were during the night by the res. 's until they can be brougat to surface. Some of the bodies are embered and mangled and all are rted by the agonies of a violent and disfigured and begrimed by concussion and the smoke and dust the explosion.

int though it is, hope is cherished rescuers and grieving friends and ives that some of the men may survived the explosion and are ting release far beneath in the . For this reason the rescuers not take time to bring out the as they were found, but con. ly pressed forward, their only being to as quickly as possible a passage to and explore every on of the mine.

Foreigners Made Night Hideous.

believed that a majority of the s are Americans. The res. report the interior of the mine damaged. As they advance they ompelled to rebuild much of the g that was blown out, and a deal of brattleing is necessary ke possible the ventilation of the sections. There is a short of many of the supplies needed ch conditions, and the work of will of necessity progress slow.

The distance from the mouth of ine to remote sections is said about three miles, and it is ht many of the bodies will be near the end of the workings. thing definite is known as to the er of men in the mine.

Believed All Perished.

R. Wodford, vice president of ompany, said that he did not be. there were over 175 men en. d. He said he and his fellow felt that there was scarcely a ility of any of the men still be. live, but on the remote chance some may survive the greatest ible volume of air is being forced the mine and the opening made st as possible. Commuted Cashier's Sentence.

eka, Kans., Dec. 21.—Governor Thursday commuted to five the sentence of J. B. Marsh Highland, Kans., bank cashier in for forgery under indetermin. sentence. For three years Mar sent to city banks forged paper as teral for cash loans, obtaining in tout $200,000 on it. His forger wrecked the bank.

Improve Augusta Postoffice.

gusta, Ga., Dec. 21.—Improve to the extent of $9,000 will be in remodeling and adding to the postoffice immediately afte of the year.

CHANGES ON SOUTHERN.

Reduction in Train Service Will Probably Be Made.

Washington, Dec. 21.—The details of the plan for a reduction in train service by the Southern Railway company have not yet been announced, and probably will not be for a week or ten days as yet.

Beginning January 5, a number of trains throughout the system will be discontinued, and a number of schedules will be consolidated. Just what proportion or percentage of the trains will be taken off has not yet been determined. Various plans are being considered by the traffic officials of the Southern railway system.

The object is to interfere as little as possible with the prompt transportation of mail and regular passenger and freight traffic. One reason given for the reduction in service is that passenger travel has fallen off very seriously despite the reduction in passenger rates. The officials of the road point to the fact that large business firms are calling in their traveling men and reducing their forces of solicitors and salesmen. This has cut down railway revenues very materially. It seems that traveling salesmen have been taken off the road two or three weeks earlier this year than formerly.

The railroads themselves are reducing their forces in the operating and clerical departments.

BUZZARD FLEW IN CAB.

Railroad Engineer Has Rather Unusual Experience.

Valdosta, Ga., Dec. 21—Wednesday night while his train on the Georgia Southern and Florida railroad was rushing along at a rapid rate on its way to Palatka, Engineer McNabb had a remarkable experience.

He was passing through one of the swamps between this place and Palatka when a buzzard flew into his cab and hit him squarely in the face. The buzzard, badly frightened, showed fight, and clawed and bit the engineer's face frantically. Engineer McNabb finally managed to get the buzzard out of the window.

Evidently the buzzard had started to fly across the track or swooped down too close to the big machine and was drawn into the cab by the air current produced by the rapid movement of the the train. The engineer was not injured, but the experience rather unnerved him for a short time.

POSTOFFICE SAFE BLOWN.

Professional "Yeggmen" Make Haul at Newnan, Ga.

Newnan, Ga., Dec. 21.—A gang of safeblowers got in their work here Wednesday night when they entered the postoffice, blew open the safe and rifled its contents of $300 in money.

The robbery was committed some time after midnight. Entrance was effected through the rear door of the building. The safe was badly shattered, the massive door being torn from its hinges and fragments hurled through the glass partition separating the office from the lobby.

The police have arrested two strangers on suspicion, but beyond this there is no clew. The work was evidently that of professional "yeggmen" who have been operating through the state during the past few months.

Alabama Supreme Court.

Montgomery, Ala., Dec. 21.—The supreme court has held that the Birmingham police commission bill is unconstitutional. Also that the putting of the name of a firm or man on the "unfair list" of a labor organization is not libelous, though he may as a result secure specified damages if proven from the persons so listing him. The ruling is that as the man may be set right by "squaring" himself with the union the classification is nothing more than an idiom of the craft.

Steerage Rush Is Over.

New York, Dec. 20.—Steamship agents say that the great rush of steerage passengers bound for Europe is practiacly over. The French liner LaLorraine carried out 894 third-class passengers Thursday and the White Star liner Arabic 600, in each case the capacity of the ship.

TAFT IS HOME AGAIN

War Secretary Back From Trip Around the World.

HE WAS ABSENT 120 DAYS

When Seen the Secretary Said He Was Not Prepared to Talk on Any Public Matters—Expects To Be Busy with War Office Work.

New York, Dec. 21.—Secretary of War Taft arrived Friday on the steamer President Grant, after a journey around the world. He was accompanied by Mrs. Taft and his son Charles.

When seen on board the President Grant at quarantine, Secretary Taft

SECREARY OF AR TAFT.

said he was not prepared to talk on any public questions.

"I have been away from the United States 120 days, and so do not feel competent to discuss matters of American public interest at this time. Absence from home has prevented me from keeping abreast of current events. While the work in the war department has, of course, moved along in the usual way during my absence, there are many matters of large importance which require my personal attention. So I expect to have my nose close to the grindstone for some time to come."

JESSE BURKE ALIVE.

Late Mystery Concerning Young Woman Cleared Up.

New York, Dec. 21.—All about as to the identity of the young woman buried at Rochester last October as Jessie M. Burke, seems to be cleared up by the receipt by her mother of a letter from Jessie, who is in New Orleans.

Before she died the young woman buried at Rochester said her name was Ella May Burke, known on the stage as Mignon Worth.

Mrs. Burke, however, identified the body as that of her daughter, Jessie, who had run away from home several years ago to go on the stage. So complete was the identification that the Metropolitan Life insurance company paid a small policy on the girl's life.

Ella May Burke, the dead girl, is said to have come from Chicago. She and Jessie Burke were no relation, yet so much alike did they look and so near alike were several birthmarks they each bore, that even the mother's eyes were deceived.

FIRE AT JACKSONVILLE.

Jacksonville, Fla., Dec. 21.—The fourstory brick building occupied by the Vehicle and Harness company at this place, was burned Friday. The loss is estimated at $25,000.

For a time a hotel adjoining the harness company's building was threatened, but the fire was confined to the building where it started.

Believed Crew Perished.

West Brook, Conn., Dec. 21.—An unknown two-masted schooner bound east was capsized and sunk two miles off this place Friday and it is believed every member of the crew perished.

RE-CHARTING PHILIPPINES.

Remarkable Inaccuracies Found in the Spanish Charts.

San Francisco, Calif., Dec. 21.—When the United States acquired the Philippine islands, the Spanish charts indicated that there were about 1,200 of them. After a few ships had punctured holes in their bottoms in water which, according to the charts, was deep, the question of making charts was taken up by the United States coast and geologic survey, and the result to date has been to arouse grave distrust of the Spanish guides to navigation. Dr. C. E. Yeagle, who has been attached as surgeon to the coast survey steamer Fathomer for the past two years, arrived here from the Orient on the liner China. Dr. Yeagle says that the American survey, which will not be completed for ten years, already shows that there are 2,000 islands in the archipelago. The American surveyor found the Spanish charts full of remarkable inaccuracies.

The United States steamers Fathomer, Pathfinder, Research, Marinduque and Romblon are now engaged in the work of charting Philippine waters.

25 KILLED, 100 HURT.

Explosion in Military Magazine at Palermo, Sicily.

Palermo, Sicily, Dec. 21—A terrific explosion occurred Thursday evening in the military powder magazine, where a large quantity of dynamite was stored, and was followed by a number of lesser explosions, the whole town being badly shaken, and the people thrown into a panic. Almost immediately flames shot high in the air and spread to the ruins of houses that had fallen, adding greatly to the people's terror.

It is estimated that about 25 persons were killed and a hundred others injured. Troops were ordered out to aid the firemen in clearing away the wreck and succoring the wounded.

Several houses that stood above the magazine partially collapsed and their destruction was completed by the fire. One of these was an emigrants' lodging house and a number of emigrants were killed.

KEEPER IS ATTACKED BY DEER.

Exciting Affair Occurs at the Bronx Zoo, New York.

New York, Dec. 21.—John Quinn, a keeper in the Bronx zoo, was attacked by five black tail deer Thursday and seriously injured. He entered the paddock where the deer are kept to feed them, when suddenly one of the animals rushed at him with lowered antlers, knocking him down and tearing his clothing. Immediately the four others joined the attack, striking Quinn very seriously with their hoofs and horns. Quinn fought back as well as he was able and his cries attracted several other keepers. By the time they had entered the paddock and driven off the infuriated animals with clubs, Quinn was unconscious.

A physician found that he had two broken ribs, several bad scalp wounds and many bruises and abrasions about the arms and body.

WILL FIGHT A DUEL.

Vienna, Dec. 21.—Dr. Alexander Wekerl, prime minister of Hungary, and M. Polonyi, ex-minister of justice, will, it is said, fight a duel probably at Budapest.

Dr. Wekerl attacked Polonyi in a speech in parliament and an angry scene followed in the lobby. Subsequently Dr. Wekerle challenged the ex-premier, but all efforts at conciliation to fight Polonyi, it is said, replied affirmatively.

Dr. Wekerl immediately sent a second to Polonyi.

Cleared of Murder Charge.

Birmingham, Ala., Dec. 21.—Harvey Curson, of Texas, was Wednesday acquitted of the charge of murder of Hyde D. McAlister, near Mount Harrison, in this county, nineteen years ago. The murder of McAlister was peculiarly atrocious, but the evidence against Curson was so weak that the jury returned a verdict of acquittal in five minutes. Curson was a prosperous farmer in Texas, and was recently arrested and brought here.

FIST FIGHT IN HOUSE

John Sharp Williams and Rep. DeArmand Clash.

WILLIAMS HIT FIRST BLOW

Minority Leader and Representative from Missouri Fall Out and Vigorous Fight Follows After the Passing of the Lie.

Washington, D. C., Dec. 21. Sharp Williams, of Mississippi, of the minority, and Repre. David A DeArmand, of Missou. gaged in a fist fight over the of the lie on the floor of the representatives Thursday afte immediately after adjournment p. m. Mr. Williams struck blow and Mr. DeArmand re vigorously with clenched fists.

When the combatants were ed, blood was flowing from Williams' face from a small cut left cheek and his forehead and scratched. Mr. DeArmand mark of the fray.

The encounter was witnessed more than 100 members of the and by as many more persons galleries, among them a score men.

The house having just adjourned, groups of representatives were stand ing or sitting about, discussing the committee appointments that had been announced by the speaker.

The immediate cause of the fight was the passing of the lie by DeArmand to Mr. Williams, resulting on a complaint by the former that the minority leader had broken faith in "burying" Representative Booher of Missouri by recommending his assignment by Speaker Cannon to the committee on coinage, weights and measures. According to the statements of the principals, Mr. Williams defended his action by declaring he had been told by Mr. Booher's colleague, Representative Lloyd of Missouri, that the committee assignments would be satisfactory to Mr. Booher. Mr. DeArmand bluntly questioned the truth of the statement, and after the failure of the effort on his part to transfer the scene of the impending battle, Mr. Williams struck Mr. DeArmand in the face with closed fist.

WOMAN MURDERED.

Was Found Lying in the Woods Horribly Mutilated.

Hammond, La., Dec. 21.—Horribly mutilated, the left side of her head entirely gone, and her body riddled with shot, Mrs. Mary Nelson, 45 years of age, one of the most respected women in the parish, was found killed in what is known as Happy Woods road, about two miles west of here on Thursday.

The murder was committed with a shotgun, loaded with a mixture of bird and buckshot, evidently fired by some one standing about ten feet from her.

Mrs. Nelson was not assaulted, nor were there any evidences of robbery, but suspicion has fallen upon a negro with whom Mrs. Nelson had a quarrel over the ownership of a dog. So far there is no trace of the negro, but Sheriff Hall, of Amite, is on the trail, and a capture is expected.

Ninth Virginia District Dry.

Roanoke, Va., Dec. 21.—Pocahontas, the only point in the ninth congressional district of Virginia where whisky is legally sold, voted out the saloon in a local option election by a majority of ten votes. Women paraded the streets and pleaded with voters to cast their ballots for the "dry" ticket. There is talk of the election being declared null and void on account of the statute providing that no local option election shall be held within thirty days of any other regular election.

Death of Big Elephant.

Bridgeport, Conn., Dec. 21.—"Mike" the largest African elephant in America, died in the circus winter quarters here Thursday. The cause of his

K. of P. Celebrate.

Mount Vernon Lodge No. 20, Knights of Pythias, propose to have a big time on the evening of the 31st inst., when six candidates will be presented for initiation into the mysteries of the order.

Grand Chancellor L. C. Lynch, who is one of the most enthusiastic Knights in the country, is anticipating this meeting with a great deal of pleasure, as he knows just how Mount Vernon Lodge puts up the work.

At the conclusion of the work it has been decided to have an oyster supper, which naturally means a program of interest when it comes to speaking.

SCHOOL HAS BEEN CLOSED.

The Faculty and Students Will Have Vacation for Next Two Weeks.

After a most successful term, the Gainesville Graded and High School will take a rest for a couple of weeks, the school having closed Friday for two weeks. The work has been most satisfactory, the faculty, headed by Prof. W. S. Cawthon, and the pupils, working steadily in harmony.

One of the pleasant features of the closing was a picnic, or lunch dinner, which was participated in by members of the fifth and sixth grades. The pupils of these grades put their lunches together Friday noon, with the result that there was a big time, with plenty of good things to eat.

The fall term of the school has proven most satisfactory, and at the end of the spring term it may safely be stated that it will be one of the most successful years in the history of the school.

DR. STROUSE WILL PREACH.

Will Deliver Interesting Sermon at Methodist Church This Evening.

Church-goers will have the opportunity of hearing at the First Methodist church tonight a fine sermon, as Dr. Clarence B. Strouse has consented to fill the pulpit at this church, relieving the minister, Rev. Thos. J. Nixon.

Mr. Nixon is himself a good preacher, but having just returned from the annual conference in Tampa, and realizing that Dr. Strouse has many friends in this city, extended to him the courtesy of his pulpit Sunday evening, which was accepted.

Dr. Strouse is a fine and influential, as well as faithful worker, and will be greeted by a good congregation tonight.

THERE MAY BE A CONSPIRACY

To Beat Frank Clark For Re-Election To Congress.

MAY BE SEVERAL CANDIDATES

Sprung Against Him from Different Counties—Leading Democrats in Various Places Offered Support if They Will Make the Race Against Him.

The Tampa Evening News of Thursday contained the following as a special from Jacksonville, and it is of particular interest in this part of the State, which composes the Second Congressional district of Florida, represented in Congress by Hon. Frank Clark:

"The existence of a conspiracy to reduce the vote of Congressman Frank Clark, and thus to make it appear that the opposition to him is widespread, is indicated by developments which have come to light here in the past few days.

"It is stated that the announcement of Ion L. Farris of this city, for Mr. Clark's seat, is but the first of a number that will be made throughout this district.

"It is known in political circles here that representatives of the faction so bitterly opposed to Mr. Clark owing to his determined stand against the Broward drainage scheme, have approached leading Democrats in Lake City, Palatka, Miami and Orlando, with offers of liberal support and encouragement should they announce for Congress against the present incumbent.

"The obvious purpose of these emissaries is, by bringing these popular 'local favorites' into the field, they securing, necessarily, good local backing, to create the impression that the opposition to Frank Clark is widespread and that there is a veritable wave of dissatisfaction with his course manifest throughout his district.

"It is also stated that these local aspirants are promised the support of the administration crowd in exchange for their support of William J. Bryan for the United States Senate.

"Evidently, one gentleman has already swallowed the bait, while others, among the most prominent men in the district, are 'nibbling.'

"It will be seen in the course of a few weeks whether they have been 'hooked' or not. If they are, the people may expect announcements of Congressional candidates from Lake City, Palatka, Miami and Orlando, to keep Mr. Farris of Jacksonville company in the effort to reduce Mr. Clark's vote."

Solomon Morgan, formerly of this city but now of Brooksville, is here for the holidays. Mr. Morgan has been connected for some time with the Tampa Northern railroad, but owing to the fact that this road has temporarily abandoned operations, he is idle. There is nothing of a serious nature connected with his suspension, however, as it is expected work will be resumed in a short time.

Mrs. F. T. McCormick desires to announce that she is again at her millinery parlors, after a few days' absence, and will offer for the remainder of the holidays everything in the millinery line at greatly reduced prices. The line is complete, the stock large, and ladies will do well to call and examine the goods and compare prices. This sale will be under the personal supervision of Mrs. McCormick.

Ben Hawthorn, a well-known young man of the town which bears his name, was among those who favored the county capital with a visit yesterday. Mr. Hawthorn states that trade is holding up very well in his town, and that the farmers of that vicinity seem to be very well satisfied with the results of their crops. The majority of them, however, are holding their cotton for better prices.

Wm. Adamson, "Dad" Altree and others spent Thursday in the woods hunting. It is said that "Dad" passed the limit, having shot twenty times with a credit of twenty-five birds. However, "Dad" states that this report was sent out by Bill Adamson, which alone was sufficient to discredit it. He declares that Mr. Adamson was jealous, because during the whole day he was unable to even flush the feathers from a bird.

Chas. M. Lynch has returned from points on the East Coast, where he has been for the past two or three weeks in the interest of a wholesale house he is representing in Jacksonville. Mr. Lynch states that the East Coast is in fine condition, and that the people of that section are anticipating a big winter traffic. The season on the East Coast has been good, and as a rule everybody seems prosperous and contented.

James Croxton of Micanopy, the efficient county surveyor, was in the city for a few hours yesterday. Mr. Croxton was en route home from Newberry, in the vicinity of which place he has been busy for the past few days surveying the new road which is projected between Newberry and Trenton. He states that the new road will be a great improvement, since it will not only shorten the distance by two or three miles, but will do away with a [illegible] sand road with which the public has had to contend.

STATE NEWS IN BRIEF

An effort is being made to bond Leesburg for an electric plant.

St. Lucie, Lee and Dade counties are experimenting in the growing of tobacco.

The total value of all exports from Pensacola for the month of November was $2,953,944.

The Knights of Pythias of Tampa will erect a handsome five-story building in that city.

Duval county will spend $2,000 on an exhibit at the Jacksonville Mid-Winter Exposition.

Roy, the sixteen-year-old son of J. B. Williams of Graceville, was thrown from his horse and killed instantly.

On Monday of last week there were 99 cars of lettuce shipped from Sanford by freight and twenty by express.

The honor of shipping the first car load of oranges this year from Fort Lauderdale belongs to Hon. P. N. Bryan.

Lee county will be represented at the State Fair in Tampa, as the county commissioners have appropriated $1,000 therefor.

The F. E. C. railway company has agreed to carry all exhibits free to and from the Florida Mid-Winter Exposition that are not intended for sale.

Col. W. J. Bryan and Henry Watterson have been invited to make opening addresses at the Mid-Winter Exposition in Jacksonville, which will open on the 15th of January.

Owing to the discovery of alleged irregularities in his accounts, Cashier J. C. Schudamore of the Pensacola Bank and Trust Company has been removed from office by the directors.

The land reclaimed by the Everglades dredges has been placed on the market. Land adjoining the canals are placed at $20 per acre, and $15 per acre for land not touching the right of way.

The Atlantic Coast Line has just issued their calendars for 1908. They are large and useful and will be furnished anyone writing to Division Passenger Agent A. W. Fritot, Jacksonville, Florida.

Hernando county has joined the list of counties which have made appropriations to provide for exhibits at the Tampa State Fair. At a recent meeting of the Board of County Commissioners they appropriated $500 for that purpose.

The St. Augustine Record has just been presented with three huge sweet potatoes. The largest weighed 9½ pounds and the other two 7 and 7½ pounds each. The two largest were found in the same hill and on the same stem.

The Grand Lodge, F. and A. M., of Florida has let the contract for their new temple at Jacksonville. It will cover a lot 105 by 85 feet, will be seven stories high and cost $125,000. The work will be started at once and will be completed within one year.

Little Alma Moree, the fourteen-months-old daughter of Mr. and Mrs. Moree of Mayo, was burned to death at their home. Mrs. Moree left the baby and her little five-year-old sister in the room playing together for a few minutes, while she went to another part of the house. She soon heard screams and ran to the child and found all of its clothes burned off and the child burned so bad that it died shortly afterwards.

A hurried call was received by the infant incubator hospital at Dixieland Park in Jacksonville from St. Augustine for a trained nurse to convey a permaturely born infant there. The request, however, had to be refused, as the hospital at the present time is filled. All the incubators are taxed to their utmost capacity and there can be no more infants taken until the present ones have been graduated. The number of applicants have been far beyond the expectations of the establishment. All the little ones are doing better each day and a visitor to Jacksonville should not miss the opportunity of visiting the same.

In the Mayor's Court.

There was a lively docket in the mayor's court Saturday morning, a number of men and women having been taken up for drunkenness. The "haul" was made by Marshal Arnow near the Seaboard Air Line depot, and was as follows:

William Mickels, Douglass Jackson, Henry Stevens, male, Julia Johnson, "Babe" Ferguson and Hector Jackson, female.

Mickels, Jackson, Johnson and Stevens were fined $5 and costs each, while the others were "let down" for $2.50 and costs each.

All the fines were paid and the defendants released.

Death of George Cushman.

Information has been received in this city of the death of George Cushman, aged eighty-four, which occurred at his home in Kingston, Mass., on Sunday last.

Deceased was the father of our fellow townsman, A. M. Cushman. He was a man of excellent Christian character, being a deacon in the Unitarian church at the time of his death. He was a man active in all walks of life, and a valuable man to his town.

Friends of Mr. and Mrs. Cushman sympathize with them in their hour of bereavement.

FOOTBALL XMAS DAY.

Gainesville High School vs. Gainesville Team—Odds in Favor of Latter.

The lovers of football will have the opportunity of seeing one of the most interesting football games of the season Christmas day, between the champion High School team and the strong Gainesville city team.

Shands of the U. of F. will take charge of the town team Monday and put them through regular practice and training.

No doubt considerable interest will be taken when it is learned that this game is to be played. The High School team will be outweighed about seven pounds to the man, but they have the pluck and courage with them. The receipts of the game will be donated to some charitable institution of this city.

All members of the High School team are requested to be present tomorrow afternoon, with suits, at the E. S. F. grounds for practice, as a hard game is expected.

"Make Your Dollars Count."

The above is the caption of an advertisement of The G. W. Hyde Company which will be found elsewhere in this issue.

Manager Gardner of this popular establishment says it is a waste of both time and money to spend your earnings for frail or fragile articles, which is good and sound logic. He requests that those in search of good, dependable and practical gifts for the holiday season visit the Hyde store and inspect the many useful as well as ornamental novelties which their large stock embraces.

Since taking charge of the Hyde store here Mr. Gardner has built up for the firm a tremendous business, upon which he is to be congratulated.

RAILROADS GRANT VERY LOW RATES

To Florida Mid-Winter Exposition At Jacksonville.

ONE FARE FOR THE ROUND TRIP

Lowest Rate Granted to Any Enterprise in Florida for Past Ten Years. Limit is Virtually Three Days, Including Day of Sale.

Special Correspondence The Daily Sun.

Jacksonville, Fla., December 21.—The most important event that has happened to the Mid-Winter Exposition Company this past week was the granting of excursion rates by the various railroads running into Jacksonville.

The importance of this can be only understood by those who have had to deal with expositions, when it must be remembered that almost every exposition in the United States has been virtually killed by the lack of co-operation on the start-off of the railway companies. The giving in many instances of a fare of one and one-third for the round trip to the Jamestown Exposition and other similar enterprises was the death knell of their hopes.

While it is true that one and one-third fares is a reduced rate, it is not a sufficient reduction to entice people into visiting an exposition. The generosity, the thoughtfulness, and the willingness on the part of the general passenger agents of the Florida railways in granting low excursion rates of one first-class fare plus 25 cents for the round trip, with a limit of two days, in addition to the date of sale, making virtually a three-day rate—all the time that anyone could ask for—cannot be too highly commended and appreciated. It is the best movement that has been made toward the success of the Florida Mid-Winter Exposition of anything yet attempted. It is a lower rate than has been granted to the State of Florida in the past ten years; it is a lower rate than has been granted to circuses, no matter of what magnitude, that have visited Jacksonville.

The citizens of any county in the State can now come to the metropolis during the Mid-Winter Exposition on from ten to twenty occasions, do their shopping, and visit the exposition at a very small expense. These low excursion rates will result in bringing the exposition and Jacksonville thousands of people who would have otherwise stayed away. Those who remember the great crowds who visited the Sub-Tropical Exposition in Jacksonville can appreciate the willingness of the people to travel when the proper inducements are offered them to do so.

We publish, herewith, the dates of the various excursions, and they seem to be ample for the occasion. We have no doubt, however, should the exposition warrant it, still more excursions will be given by the railway companies:

One first-class fare plus 25 cents for the round trip, with a limit two days in addition to the date of sale, to be sold from points south of a line drawn from Archer, through Gainesville, Rochelle, Hawthorn and Palatka, on January 15th, and 29th, February 12th and 26th, March 11th and 25th, and April 1st. Tickets on and north of the above described line to be sold January 10th and 30th, February 13th and 27th, March 12th and 26th, and April 9th.

The Florida Mid-Winter Exposition is to be held in Jacksonville for a period of almost three months, with almost every attraction.

EUCALYPTUS TREES IN FLORIDA.

During the past few years the blue gum tree, one of the Australian eucalypts, has been planted in parts of Southern Florida and has thrived to such a degree as to assure good results from plantings of that species in the Southern section of the Peninsula. The successful plantings were made in low sandy soils near Cape Canaveral, about Fort Myers, and elsewhere. The water level is usually less than six feet below the surface, and the trees find no difficulty in obtaining all the moisture needed.

The blue gum and other ecalypts were brought to California from Australia many years ago, and have shown remarkable growth in the warm climate and friendly soils of the Pacific coast. It becomes a trunk in a few years when conditions are favorable, but it cannot withstand severe frost, and for that reason it can be grown with profit only in limited areas of the United States. Much attention is being given to it in California, and hundreds of thousands of trees were planted the past year. Railroads use it for ties and are planting large tracts for that purpose. It has many uses—fuel, posts, poles, and lumber. No tree grows with greater rapidity.

The success which has attended the introduction of this valuable tree in Southern Florida proves that it will prosper there. Although much of the soil is stony, the underground water lies near the surface and the roots of the eucalypts easily reach it. If they can obtain sufficient anchorage to hold the trunks against the force of the wind, success is reasonably sure even in the stony ground, while many situations are available where the soil is deep and free from stones, and in such places the eucalypt find ideal conditions for rapid growth.

TAFT AND HUGHES.

This week has brought into clear view the candidacies of Secretary Taft and Governor Hughes for the Republican nomination for President of the United States, says The Wall Street Journal. Secretary Taft has already been favored with the formal support of the Republican organization of the State of Missouri. There is some reason to believe that the strength of Secretary Taft has not been appreciated at its full value in New York. He is stronger than is commonly understood here. Moreover, he has the great advantage of being a Western man and the West holds the balance of political power and will ordinarily throw the weight of that power in favor of a candidate coming from its section.

Nevertheless, one of the most remarkable political developments of recent years has been the rapid growth of Governor Hughes' popularity, in spite of the fact that he has taken no active measures to promote it, and has no political organization back of him. This is all the more extraordinary because Governor Hughes is an absolutely new man in politics, and his present office, which he has held only for a year, is his first public position. Moreover, his personality, while it inspires respect, and his mental powers, while they excite admiration, are not such as ordinarily to attract popular enthusiasm.

The work of dredging out the Flagler channel in Bay Biscayne is progressing nicely. It is quite an undertaking and will take several months to complete. A distance of about one thousand yards will have to be dredged, the width of the channel being about 120 feet and a depth of from 12 to 14 feet. Heretofore the P. & O. S. S. Line have frequently had difficulty in getting in and out of Miami.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

Take Hall's Family Pills for constipation.

The seven-masted schooner Thomas W. Lawson, which has been wrecked in the Scilly Islands, ran her whole career under something of a hoodoo, says an exchange. In the first place, she was too big. There were only a few ports that she could enter, so that there was difficulty in securing profitable charters for her. The handling of her was costly, which reduced the percentage of profits of operation. Again, she seems to have been naturally unlucky. Every sailor will assert and maintain that there are some craft that are unlucky without any apparent good reason for it, and the Lawson was one of them. She was nearly always stuck in the mud somewhere, or having her top-hamper carried away by gales somewhere else. It is worth while noting that the vessel, named in honor of the most ardent foe of the Standard Oil Company and the "system," ended her days as an oil carrier.

A panic in a theater is no easy thing to stop, says Young's Magazine for January. It may likely lead to loss of life, when there is absolutely no cause for alarm. John Mason, now playing in "The Witching Hour," tells of an episode which occurred during one of his afternoon performances in England. "I was playing to a crowded audience," says he, "when suddenly without any warning the whole of the skylight tumbled in without perceptible cause. Immediately the audience rose en masse. They all lost their heads and I saw that a panic was imminent. For a moment I did not know what to do. Then I burst out laughing, sat down at the piano, and played away as if my life depended on it. It probably did. 'Do sit down,' I urged the people in my quietest way, 'there is no cause for alarm. It is only somebody trying to get in without paying.'"

On December 16th Congressman Frank Clark introduced House Bill No. 9103, increasing the limit of the cost of the Gainesville public building to $200,000. Everything possible will be done to secure the passage of this bill, but The Sun fears it will be impossible to do anything in this direction on the eve of a Presidential election, when the Republican party will oppose most bills of this kind, except where such expenditures are calculated to promote the interest of Republican candidates in close districts.

"Young Mr. Farris of Jacksonville," is the style of reference most in vogue with the press of the State when speaking of the lately announced candidate for Congressman Frank Clark's shoes. The newspapers are practically unanimous in the opinion that Mr. Farris is "up against it." And the newspapers generally reflect the sentiment of their respective localities.—Palatka News.

Notes From
Florida Female College

Tallahassee, Fla., Dec. 21.—The work of the Florida Female College, thorough in the past, is more so now. The attendance also shows decided improvement over last year, and this growth has been made under unfavorable conditions, for the school is greatly hampered by the lack of room.

Quite a number of new courses are offered this year in the College of Liberal Arts, some of them being post-graduate courses, for six of the graduates of last year have returned to work for higher degrees.

In the School for Teachers we find that more and more stress is being laid on professional training. Those who go out from this department at the end of the year should be well prepared for intelligent work. Our kindergarten students are completely carried away with their work. At times they put some of the rest of us to shame by their enthusiasm. Three of the girls who hold scholarships are taking this course. The Lamar scholarship is also held by a kindergartener. She will be with us after Christmas.

Just at this time we all begin to wish that we were in the Domestic Science Class, for these girls have been making candies, Christmas puddings and other dainties of which we are fond. Then, too, these students look so smart in their dainty white caps and aprons.

In the School of Art there are two divisions, viz: the normal classes and the private students. Some of the latter are doing good work in landscape painting, both in oil and in water colors.

We lost our social teacher last year by marriage, but her place is efficiently filled by Miss Cline. We have added another music teacher, Miss Purucker, a violinist, to our faculty. Those who were present at the recent student musical recital, and at Vesper service last Sabbath, have substantial proof of the work of this department.

Nor is the physical training neglected. Besides the regular gymnasium exercises, the girls take much interest in basket ball and in tennis. And not the girls alone, because a new court has lately been laid for the lady teachers.

The two literary societies are both active and progressive, and if we may judge by the programs rendered in their respective open meetings, they are worthy of commendation. If you wish to know more of these societies (and we trust you do) consult their joint publication, "The Talisman." The societies are governed and the magazine published entirely by the student body without aid from the faculty.

One of my classmates wrote on the board this morning, "Christmas is coming." Have we not, for the last month, been verily counting the days and hours before vacation? And so home we go for the holidays, that we may come back refreshed in body and mind, and prepared for even harder study.

The season's greetings to all.

REPORT ON COTTON.

Census Bureau Issues Bulletin on the Number of Bales Ginned.

Washington, Dec. 21.—The census bureau has issued a bulletin showing that the total amount of cotton of this year's growth in the United States ginned up to Dec. 13 last was 9,281,077 bales, as compared with 11,112,789 bales for the same period last year, and 9,297,819 bales for the same period in 1905.

The total number of active ginneries was 27,742.

In this bulletin, round bales are counted as half bales.

The number of round bales included is 167,485 for 1907 and 243,096 for 1906 and 253,357 for 1905.

Sea Island included 47,115 for 1907, and 49,361 for 1906 and 52,276 for 1905.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

AFTER THE TRUSTS.

Congressman Edwards Introduces Two Resolutions.

Washington, D. C., Dec. 21—Representative Edwards has introduced two resolutions directing the secretary of commerce and labor to investigate the alleged combination of cotton buyers, and ascertain whether or not such a combination existed, and its effect upon the cotton trade; also to investigate the naval stores trust, with special reference to the market for naval stores at Savannah, Ga., and Jacksonville, Fla.

By a bill introduced by Mr. Clark of Florida it is provided that after July 1, 1908, there shall be levied a tax on Egyptian and long staple cotton in the lint of 10 cents per pound, and in the seed of 4 cents per pound.

A bill designed to place intoxicating liquors in a special class of commodities subject to police powers of the states, and to prohibit the entry of such liquors into prohibition states, was introduced in the house by Representative De Armond of Missouri.

Mr. Underwood of Alabama introduced a bill imposing a tax of one-tenth of 1 per cent on the average amount of deposits held by national banks for the purpose of creating a fund for the protection of depositors and creditors. It is provided that, upon the failure of the bank, money shall be drawn from this fund to make up deficit to depositors after the bank's assets are used.

A bill to levy a tax upon incomes was introduced by Mr. Hull of Tennessee. It imposes a tax of 2 per cent on incomes over $4,000, and makes elaborate provision for its collection.

PRINTING PLANT DAMAGED.

Fire Occurs in the LaHatte Office in Atlanta, Ga.

Atlanta, Dec. 21.—There were two fires in Atlanta on Thursday night. The first was in the LaHatte Printing company's plant, and the second under an electric theater near the corner of Peachtree and Alabama streets. In the latter a boy named Jesse Neville was badly burned.

The loss in the printing shop, it is said, will reach the total of $20,000. Of this sum $4,000 was paper stock, which was entirely ruined by the combination of fire and water. It is estimated that the damage done to the plant will be about $12,000.

This loss, it is declared, was partially covered by insurance in seven companies.

Damage to the extent of $[illegible] was done in the second fire.

Passed Examination Successfully.

James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physicians for diabetes, but did not improve until I took Foley's Kidney Cure. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Cure cures backache and all forms of kidney and bladder trouble. J. W. McCollum & Co.

FORGOT TO HOLD ELECTION.

Instance Unparalleled in History of Municipal Affairs.

Thomasville, Ga., Dec. 21.—The citizens of Camilla at their last primary for city officers elected a mayor by only a small majority of three votes after a most strenuous campaign.

Resting on the laurels of victory, the people forgot all about the election confirming the primary, and none was held.

This leaves them with no officers for the coming year, and is an instance unparalleled in the history of municipal affairs.

It is not known what the outcome of the affair will be, as there is no precedent to go by. The people are looking into the matter with much interest and speculation.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—Geo. W. Spencer, Holly Springs, N. C. For sale by all druggists.

Beautiful Home in Burned.

Thomasville, Ga., Dec. 21.—The elegant new home of Mr. J. R. Salter was destroyed by fire Thursday at an early hour. The fire is said to have been of an incendiary origin, as tracks of men were clearly seen all over the yard and around the building. There was insurance, but not enough to cover the cost of the house, to say nothing of the furniture.

Alfred Russell Wallace caught a baby orang-o-outang. Just like a human baby, it had to be fondled. He must croon before he would go to sleep. When alone it was absolutely quiet. But footfalls brought on the whining. Did it ever occur to you that for the most part our crying is done for the galleries?

Broadly speaking, freedom is not liberty. Nor will liberty ever be license in the full sense of the word. I am not at liberty to do as I please. When my thought and act interferes with the rights and privileges of another I am no longer free. Freedom is always a right to obey the expressed will of the majority.

I never pass a young man on the streets without having come to me again the far-away vision. It's the form of a beautiful young woman hovering over the form of her first-born. And she's dreaming, too—dreaming of the far-off years when her slumbering baby shall be a man. And I wonder if it's only a dream that comes to her.

I have noticed in natural history that when a baboon gets too old to help himself the rest of the tribe forsake him utterly and will have nothing to do with him. The discovery of this woeful trait among some human beings leads us to think that Professor Darwin had an inkling of the truth when he wrote of ancestral apes and monkeys.

Some men and their aircastle dreams remind me of a story: Uncle Solon told his master that the barn was full of rats and if he just had a day off he could kill a thousand. He got the day off. About the middle of the morning the master went to the barn and found the old negro sitting on a sill, half asleep. "Well, Solon, have you got your thousand yet?" "Hugh, Mas' Jeems! Ef I gits dis heah one and two mo' I'll hab three."

A discord is only harmony misunderstood. It is not always the silver chord that's out of tune. The ear may lose the power to catch the sweetest note. How true that is! Is the life of some struggling spirit a discordant note to you? Is the heart all out of tune? It may be your ear is insensible to the sweetest strains. If we only knew that discord is harmony misunderstood—oh, if we only knew that—we would be thrilled by music soft and low in the very hearts that now disturb us.

The silent sufferings of the mind, as it undertakes to unravel the tangled thread of life and affection, are unwordable. It has no spoken language. It tells its story in the sunken eye, the shattered nerve, the silvery hair, the furrowed brow. It's a sad story that needs no tongue—its eloquence is in the hush that attends. Watch the throng that's passing now—you'll catch the message, for such a suffering heart speaks in whispers. It dreads the listening ear and evades the nameless fiend who would increase the torture by its ruthless gossip.

We forget that a child has no power of resistence. In a very large sense he is an exact copyist. The child raised in the frigid atmosphere of some homes I know will doubtless develop into a morbid and icy manhood. The child throws the shuttle in life's loom, but he has to borrow his warp and woof from the grown-up folks about him. They are the unerring prophesies of the future. A nation can never be greater than her sons. It is so true—the child is an epitome of the past and the prophecy of the future. We are coming more and more to see that the man who molds the child-life of this generation fashions the destiny of the coming ages.

How Diphtheria Is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diptheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. For sale by all druggists.

SEA ISLAND COTTON.

Savannah Market Rules Firm for Certain Grades.

Savannah, Ga., Dec. 21.—The market for Sea Island cotton was firm for fancy Georgias and Floridas and easy for the lower grades. The demand for everything except fancy was fitful and irregular.

The quality of the receipts shows no improvement, and the result is shown in the continued widening out of the differences between extreme grades. The grade of extra choice has been divided into several subgrades, which sufficiently explains the wide split in the quotations for extra choice Georgias.

The census bureau report of the number of bales ginned to Dec. 13 was issued yesterday and showed 65,145 this season, against 49,361 last year, and 90,836 in 1905. This is considered as practically establishing the correctness of the crop estimate of about 80,000 bales.

The following prices are based on factors' quotations and are revised weekly on Fridays:

Fancy Floridas	29 @30
Fancy Georgias	28 @29
Ex. choice Floridas	Nominal
Ex. choice Georgias	21 @25
Choice Ga's. and Fla's	20

Party at Rochelle.

There was a small card party given by Mrs. Jones on the evening of the 20th inst., and the young people responded promptly at half-past seven. There were games of cards and other amusing games of various kinds, and all enjoyed themselves with the greatest of pleasure, and at a late hour the guests departed for home, thanking Mrs. Jones and assuring her that they had enjoyed her hospitality.

The ladies present were Miss Annie Coulter, Miss Lava Jones, Miss Rosa Roberts, Miss Mamie Jones, Miss Irene Jones, Miss Sadie Coulter, Messrs. J. A. Roberts, Jake Zetrouer, Louis Manning, Ollie Fleming, Peter Perry, J. S. Roberts and Willie Riles.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

DARING ROBBERY ATTEMPTED.

Man Tried to Loot Car of Gold Bullion In Transit.

Philadelphia, Dec. 21.—Charged with making a daring attempt to rob a car on the Buffalo express containing gold bullion while the train was speeding in the Reading Terminal on Thursday night, William A. Howell, who gives his address at 325 West Fifteenth street, New York, was yesterday held in heavy bail for a further hearing.

The trial had been made up and was scheduled to leave at 8:12 p. m. by way of the Reading railway and the Lehigh Valley. One of the express cars contained $60,000 in gold bullion which was being shipped by the government to Buffalo.

The alleged robbery was discovered quite by accident. A yardman who at work on a truck unloading the one on which the express train stood heard a peculiar grating noise and on investigating discovered Howell under the bullion car at work with a saw on a gas pipe. The yardman gave the alarm and Howell was pursued by the station men. He was captured.

When to Go Home.

From The Bluffton (Ind.) Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children first. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by all druggists.

Will Fight Extradition.

Vancouver, B. C., Dec. 21.—Following that of Captain R. G. Rogers, wanted by the United States authorities in connection with the [illegible] Rainbow since June 1. A few days ago Smith was extradited at the request of the treasury department at Washington for $92,500. This he said was the net proceeds of a safe burglary in Chicago. It is alleged that the check which Smith offered at the bank was stolen from the United States quartermaster's office at Fort Sheridan in Illinois.

Notes From Florida Female College

Tallahassee, Fla., Dec. 21.—The work of the Florida Female College, thorough in the past, is more so now. The attendance also shows decided improvement over last year, and this growth has been made under unfavorable conditions, for the school is greatly hampered by the lack of room.

Quite a number of new courses are offered this year in the College of Liberal Arts, some of them being post-graduate courses, for six of the graduates of last year have returned to work for higher degrees.

REPORT ON COTTON.

Census Bureau Issues Bulletin on the Number of Bales Ginned.

Washington, Dec. 21.—The census bureau has issued a bulletin showing that the total amount of cotton of this year's growth in the United States ginned up to Dec. 13 last was 9,281,077 bales, as compared with 11,112,789 bales for the same period last year, and 9,297,819 bales for the same period in 1905.

The total number of active ginneries was 27[illegible].

In this bulletin, round bales are counted as half bales.

The number of round bales included is 167,486 for 1907, and 243,096 for 1906 and 2[illegible] for 1905.

Sea Island [illegible] for 1907, and 49,361 for 1906 and [illegible] for 1905.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

AFTER THE TRUSTS.

Congressman Edwards Introduces Two Resolutions.

Washington, D. C., Dec. 21—Representative Edwards has introduced two resolutions directing the secretary of commerce and labor to investigate the alleged combination of cotton buyers, and ascertain whether or not such a combination existed, and its effect upon the cotton trade; also to investigate the naval stores trust, with special reference to the market for naval stores at Savannah, Ga., and Jacksonville, Fla.

By a bill introduced by Mr. Clark of Florida it is provided that after July 1, 1908, there shall be levied a tax on Egyptian and long staple cotton in the lint of 10 cents per pound, and in the seed of 4 cents per pound.

A bill designed to place intoxicating liquors in a special class of commodities subject to police powers of the states, and to prohibit the entry of such liquors into prohibition states, was introduced in the house by Representative De Armond of Missouri.

Mr. Underwood of Alabama introduced a bill imposing a tax of one-tenth of 1 per cent on the average amount of deposits held by national banks for the purpose of creating a fund for the protection of depositors and creditors. It is provided that, upon the failure of the bank, money shall be drawn from this fund to make up deficit to depositors after the bank's assets are used.

A bill to levy a tax upon incomes was introduced by Mr. Hull of Tennessee. It imposes a tax of 2 per cent on incomes over $4,000, and makes elaborate provision for its collection.

PRINTING PLANT DAMAGED.

Fire Occurs in the LaHatte Office in Atlanta Ga.

Atlanta, Dec. 21.—There were two fires in Atlanta on Thursday night. The first was in the LaHatte Printing company's plant, and the second under an electric theater near the corner of Peachtree and Alabama streets. In the latter a boy named Jesse Neville was badly burned.

The loss in the printing shop, it is said, will reach the total of $20,000. Of this sum $[illegible] was paper stock, which was entirely ruined by the combination of fire and water. It is estimated that the damage done to the plant will be about $[illegible].

This loss, it is declared, was partially covered by insurance in several companies.

Damage to the extent of $[illegible] was done in the second fire.

Passed Examination Successfully.

James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physicians for diabetes, but did not improve until I took Foley's Kidney Cure. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Cure cures backache and all forms of kidney and bladder trouble. J. W. McCollum & Co.

FORGOT TO HOLD ELECTION.

Instance Unparalleled in History of Municipal Affairs.

Thomasville, Ga., Dec. 21.—The citizens of Camilla at their last primary for city officers elected a mayor by only a small majority of three votes after a most strenuous campaign.

Resting on the laurels of victory, the people forgot all about the election confirming the primary, and none was held.

This leaves them with no officers for the coming year, and is an instance unparalleled in the history of municipal affairs.

It is not known what the outcome of the affair will be, as there is no precedent to go by. The people are looking into the matter with much interest and speculation.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—Geo. W. Spencer, Holly Springs, N. C. For sale by all druggists.

Beautiful Home in Burned.

Thomasville, Ga., Dec. 21.—The elegant new home of Mr. J. R. Salter was destroyed by fire Thursday at an early hour. The fire is said to have been of an incendiary origin, as tracks of men were clearly seen all over the yard and around the building. There was insurance, but not enough to cover the cost of the house, to say nothing of the furniture.

Alfred Russell Wallace caught a baby orang-o-outang. Just like a human baby, it had to be fondled. He must croon before he would go to sleep. When alone it was absolutely quiet. But footfalls brought on the whining. Did it ever occur to you that for the most part our crying is done for the galleries?

Broadly speaking, freedom is not liberty. Nor will liberty ever be license in the full sense of the word. I am not at liberty to do as I please. When my thought and act interferes with the rights and privileges of another I am no longer free. Freedom is always a right to obey the expressed will of the majority.

I never pass a young man on the streets without having come to me again the far-away vision. It's the form of a beautiful young woman hovering over the form of her first-born. And she's dreaming, too—dreaming of the far-off years when her slumbering baby shall be a man. And I wonder if it's only a dream that comes to her.

I have noticed in natural history that when a baboon gets too old to help himself the rest of the tribe forsake him utterly and will have nothing to do with him. The discovery of this woeful trait among some human beings leads us to think that Professor Darwin had an inkling of the truth when he wrote of ancestral apes and monkeys.

Some men and their aircastle dreams remind me of a story: Uncle Solon told his master that the barn was full of rats and if he just had a day off he could kill a thousand. He got the day off. About the middle of the morning the master went to the barn and found the old negro sitting on a sill, half asleep. "Well, Solon, have you got your thousand yet?" "Hugh, Mas' Jeems! Ef I gits dis heah one and two mo' I'll hab three."

A discord is only harmony misunderstood. It is not always the silver chord that's out of tune. The ear may lose the power to catch the sweetest note. How true that is! Is the life of some struggling spirit a discordant note to you? Is the heart all out of tune? It may be your ear is insensible to the sweetest strains. If we only knew that discord is harmony misunderstood—oh, if we only knew that—we would be thrilled by music soft and low in the very hearts that now disturb us.

The silent sufferings of the mind, as it undertakes to unravel the tangled thread of life and affection, are unwordable. It has no spoken language. It tells its story in the sunken eye, the shattered nerve, the silvery hair, the furrowed brow. It's a sad story that needs no tongue—its eloquence is in the hush that attends. Watch the throng that's passing now—you'll catch the message, for such a suffering heart speaks in whispers. It dreads the listening ear and evades the nameless fiend who would increase the torture by its ruthless gossip.

We forget that a child has no power of resistence. In a very large sense he is an exact copyist. The child raised in the frigid atmosphere of some homes I know will doubtless develop into a morbid and icy manhood. The child throws the shuttle in life's loom, but he has to borrow his warp and woof from the grown-up folks about him. They are the unerring prophesies of the future. A nation can never be greater than her sons. It is so true—the child is an epitome of the past and the prophecy of the future. We are coming more and more to see that the man who molds the child-life of this generation fashions the destiny of the coming ages.

How Diphtheria is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diptheria," when the t' th was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. For sale by all druggists.

SEA ISLAND COTTON.

Savannah Market Rules Firm for Certain Grades.

Savannah, Ga., Dec. 21.—The market for Sea Island cotton was firm for fancy Georgias and Floridas and easy for the lower grades. The demand for everything except fancy was fitful and irregular.

The quality of the receipts shows no improvement, and the result is shown in the continued widening out of the differences between extreme grades. The grade of extra choice has been divided into several subgrades, which sufficiently explains the wide split in the quotations for extra choice Georgias.

The census bureau report of the number of bales ginned to Dec. 13 was issued yesterday and showed 65,145 this season, against 49,361 last year, and 90,836 in 1905. This is considered as practically establishing the correctness of the crop estimate of about 80,000 bales.

The following prices are based on factors' quotations and are revised weekly on Fridays:

Fancy Floridas	29	@30
Fancy Georgias	28	@29
Ex. choice Floridas	Nominal	
Ex. choice Georgias	21	@25

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

DARING ROBBERY ATTEMPTED.

Man Tried to Loot Car of Gold Bullion In Transit.

Philadelphia, Dec. 21.—Charged with making a daring attempt to rob a car on the Buffalo express containing gold bullion while the train was running in the Reading Terminal on Thursday night, William A. Howett, who gives his address at 225 West Fifteenth street, New York, was Friday held in heavy bail for a further hearing.

The train had been made up and was scheduled to leave at 8:10 p. m. by way of the Reading railway and the Lehigh Valley. One of the express cars contained $60,000 in gold bullion which was being shipped by the government to Buffalo.

The alleged robbery was discovered quite by accident. A yardman while at work on a track adjoining the one on which the express train stood heard a peculiar grating noise and on investigating discovered Howett under the bullion car at work with a saw on a gas pipe. The yardman gave the alarm and Howett was pursued to the station. He was captured.

When to Go Home.

From The Bluffton (Ind.) Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children first. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by all druggists.

Will Fight Extradition.

Washington, D. C., Dec. 21.—Declaring that he is Captain R. L. Rodney, wanted by the United States government on a charge of forgery, D. L. Smith is preparing to fight extradition. Smith has been living at Roulsons since June. A few days ago Smith was exhibiting a check on the treasury department at Washington for $82,500. This he said was the net proceeds of a sale of his property in Chicago. It is alleged that the check which Smith offered at the bank was stolen from the United States quartermaster's office at Fort Sheridan in Illinois.
